Re: The National Nurse Act 2015, H.R.379

Dear Congresswoman Johnson,

The New Jersey Association of Public Health Nurse Administrators, Inc. [hereinafter NJAPHNA], wish to express our support of H.R. 379, the National Nurse Act of 2015. In particular, NJAPHNA concurs with and opines that the office of the Surgeon General with its already vested position of the Chief Nurse Officer (CNO), a Registered Professional Nurse therein, is the proper vehicle to launch this very important initiative.

NJAPHNA, is the voice of professional Public Health Nurses and Public Health Nurse Administrators representing the interests of Public Health Nurses within the State of New Jersey. Public Health Nursing is a multivariate practice discipline that encompasses and focuses on populations outside of formal hospital and institutional settings, i.e., community nursing, parish nursing, school nursing, visiting nurses et.al. Our goals include achieving the (10) ten mandates of public health e.g., proactive health maintenance through health education, screenings and disease prevention, advocating for and seeking access to resources for those that are disenfranchised or marginalized by socioeconomic forces outside of their control. H.R. 379 provides for the elevation of the Chief Nursing Officer within the Surgeon General's Office, , including a report to Congress on the Commissioned Corps Nursing Category, and provides for the CNO to be the advocate and the face of Nursing that will address the health care demands of our nation.

We, in NJAPHNA, appreciate and commend you for your tireless effort and work in advancing the visibility of nursing and the important goals of public health in our nation. Thank you for your courtesy and consideration in this matter. And we thank you for your service.

Respectfully Submitted,

Carole A. Hudson, RN, BSN, JD

President
